

## **AMENDMENTS TO THE SPECIFICATION**

### **Please amend paragraph [0021] as follows:**

**[0021]** FIG. 1 illustrates computing devices coupled together in accordance with an embodiment of the present invention. The system includes user computing device 104, support computing device 118, server computing device 108, network 106, user 102, ~~and support personnel 116,~~ and security providing mechanism 120.

### **Please add the following new paragraph after paragraph [0026]**

**[0026.5]** Security providing mechanism 120 provides access controls for virtual servers 110, 112, and 114 by preventing any of virtual servers 110, 112, or 114 from accessing any other virtual server 110, 112, or 114. Note that any additional virtual servers would also be protected from access by any other virtual server by security providing mechanism 120.
